ABOUT CAITLYNN

Caitlynn has 15 years of experience in artistic tattooing and 20 years of experience in classical realism painting. These two skill sets make her uniquely qualified to perform medical realism tattooing. In 2023, she completed cosmetic and paramedical tattoo-specific training at Pigmenta Permanent Cosmetics in Boston and continued to hone her skills at Studio Ivanova in Middlefield, Connecticut.

Caitlynn is currently accepting new clients for medical realism (paramedical) tattoos.

Caitlynn combines years of skill with compassionate, professional care. She is available for referrals to her welcoming, private tattoo studio in downtown Manchester, Connecticut. She can also travel within the Tri-state area if your practice wants to add these life-changing services for patients who do not want to travel to a separate location.

AFTER OTHER PROCEDURES,
PARAMEDICAL TATTOOING CAN
HELP COMPLETE THE HEALING
PROCESS FOR:

- facelift scars
- cleft palate scars
- burn scars
- mastectomy scars
- alopecia
- gender-affirming procedures
- C-section scars

and so much more
